### WHAT IT DEMANDS OF THIS COUNTRY

An American Deserter-Embassy of Apology to Japan-Missing Postage Stamps,

YOKOHAMA, Sept. 2.-The Japan Gazette says: "We have already reported that the Japanese Government has forwarded particulars of the Hawalian scandal to Mr. Takahira, Japanese Minister at Washington, preparatory to the opening of negotiations with the American Government. It is now stated that instructions have been given to the Japanese Representative by the Government to open negotiations with the American authorities. The conditions of redress to be demanded are said to include the removal of any discrimination between white and Japanese people in the matter of health inspection, the employment of female doctors for the inspection of women, the disciplinary punishment of the guilty officials, etc."

THE AMERICAN DESERTER.

Arthur Howard, the deserter from the Ist California regiment, U. S. Army, has been promoted to a lieutenantcolonelcy in the insurgent army in the Philippines, and up to a short while ago has been having things all his own way. He is described as a high roller, with a mania for the cock-pit. He bets fight. If he wins, he demands and reeives prompt cash. If he loses he signs "chit." PESTILENCE AT PEKING.

Chinese newspapers state that a pesilence has broken out among the poorer class of Chinese in Peking. The victims die within an hour or two of infection. Nothing is stated as to the birth of the organization was really nature of the disease, except its sudden and deadly effect. A SECRET COMPACT.

A Sian dispatch reports that the empress dowager is feeling much alarm at the receipt of a recent telegram from Yang Ju, Chinese minister at St. Petersburg, stating that Great Britain and Russia have recently entered into Japan's Excitea secret convention by which the rormer power binds itself not to interfere in any thing that may hereafter happen north of the Great Wall, white Russia does the same in regard to any action south of the Great Wall. Not very likely, we think.

DEATH RATE AT OSAKA

The daily death rate in Osaka has averaged forty-seven or thereabouts for about two years, and the largest number in any one day has onty exceeded ninety on one or two occasions. The death rate since last month, however, has remarkably increased, more than ninety having been often recorded. On the 20th ultimo there were 110 deaths, which is a record. The rate goes up every year in the beginning of autumn, but the number this year is exceptionally larrge. As these returns do not include deaths from any infectious disease, it would seem to be evident that the present hot weather has told severely on Osaka folk.

CROWN PRINCE TO GO ABROAD. It is reported that H. I. H. the Crown Prince will go abroad for the benefit of his health, says an Osaka paper. Nothing has been decided as to the warship which is to convey his highness. Two other ships will convoy the prince's vessel. It is thought that the prince will leave in March or April next.

RUSSIANS AND KONOYE.

A letter from Chefoo published in Japanese papers describes the reception accorded by the Russian authorities at Port Arthur to Prince Konoye, president of the House of Peers, who is now making a tour in Korea and China. As soon as the prince arrived at Port Arthur he notified General Alexien that he had arrived there on a tour in his private capacity. When the Russian officer received the intimation he at once sent one of his staff officers with a carriage to receive the Japanese visitor. Prince Konoye was very warmly received by the Russians. When the prince wished to see the harbor works of Victoria Bay at Talienwan, which are now in course of improvement, the man-of-war Zabiaka was placed at the disposal of the prince and his suite on the ground of the inconvenience of the railway journey. At Talienwan thprince also met with as cordial a reception as at Port Arthur. Prince Ko-noye was given a copy of the plan of as high as a cool thousand on one cock- harbor improvements and a minute ex- Clams planation was made as to the various Crabs projects. On the occasion of the prince's departure from Tallenwan to Chefoo, the Zablaka was also specially commissioned to convey the prince to his destination. # SHIRT WAIST COLLARS

STYLE AND COMFORT COMBINED

Be Advised and Try One!

"My dear", said the groom, "Why do you insist on turning in the neck of your shirt waist like that? It isn't at all artistic."

"Because, John, it's so hot here", said the bride, "And, besides, low neck is all the style in the East now."

Two good reasons; true ones, too; but we worder if that bride had been introduced to the SHIRT WAIST COLLAR. Made of dainty laces and ribbons it can be worn with any shirt waist, adding prettily to the appearance of that garment, and taking away the unfinished look which it has when the neck band is merely folded in. They don't cost much either. A quarter will enable you to try the experiment.
